

ROCK YOUR LIFE! Mentoring

Dear parents,

ROCK YOUR LIFE's purpose is accompanying secondary school graduates during their transition into professional life or to further education considering their individual interests and talents. University level students act as their mentors and are trained specifically for the task of working with them on a one to one basis to develop their strengths and work towards realizing their professional goals. Mentors support the teenage graduates with decisions regarding their further educational path and with preparing the entrance into professional life (job search and selection / job applications). To that end ROCK YOUR LIFE offers free training to teenage graduates consisting of a three-day seminar which they attend together with their mentors and in which they learn about recruitment, career paths and establishing a personal career plan and milestones. Our aim is to support the development the personality, individual talents and social competence of teenage graduates and to enable them to conduct a self-dependent life.
